SPREESCAPE

Hello,
Welcome to my art portfolio. This collection features digital illustrations, calligraphy, traditional art forms, pencil sketches, and canvas paintings that express my emotions and explore nature's beauty. Alongside my artistic creations, I also design websites in Figma, blending vibrant aesthetics with intuitive design. Through my work, I share glimpses of my inner world.

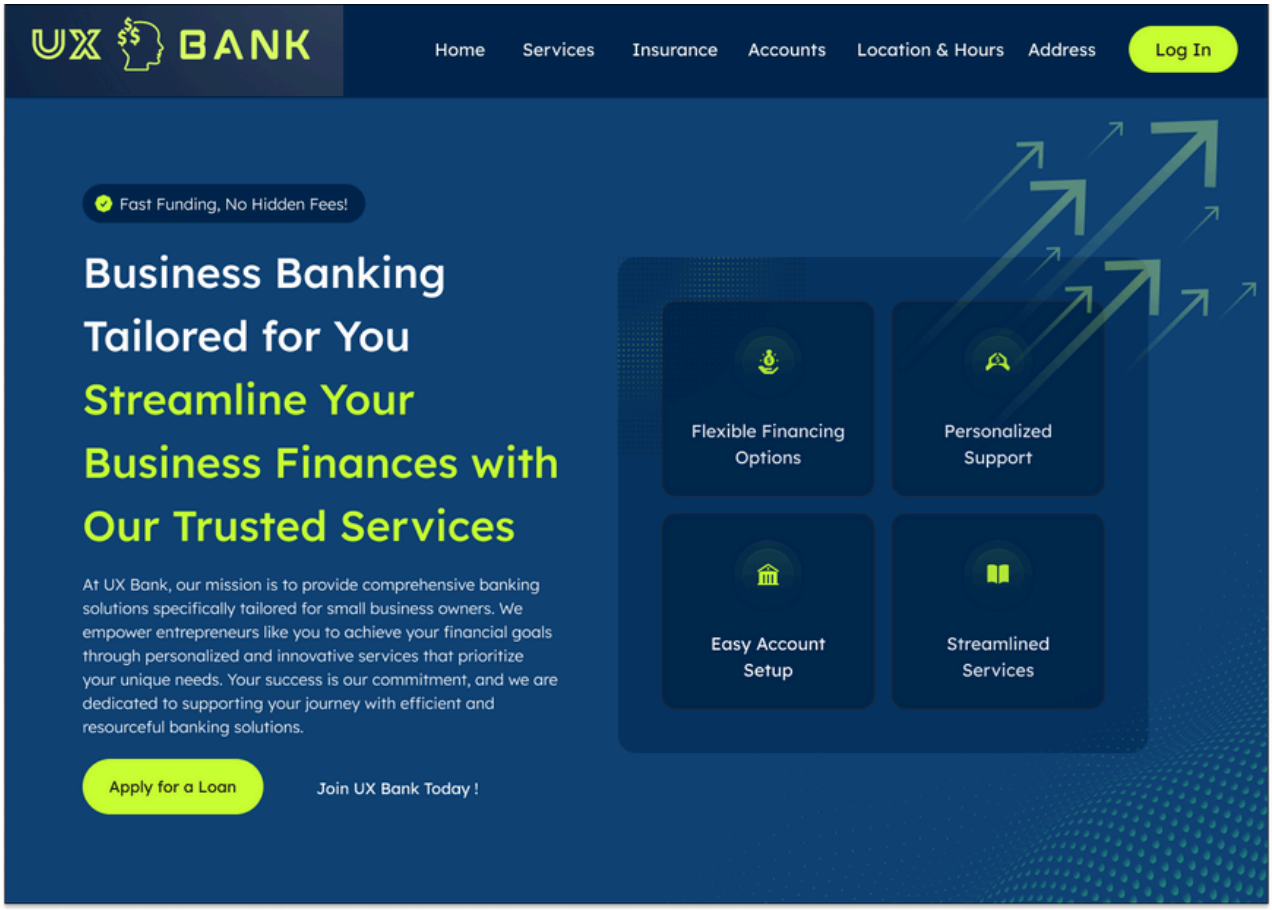
As I pursue my master's degree, I aim to integrate my technical skills with my artistic strengths. By blending these two worlds, I’m working towards creating innovative digital experiences. I've taken an 'Experience Design' course, which has enhanced my ability to craft designs that are both visually captivating and user-friendly. This course, along with my passion for art, enables me to create intuitive, tech-driven solutions that resonate with users and elevate their experiences.

Figma Mock up for UX Bank

User Group - Small Business Owners
Intended Experience - Techy, Modern, Reliable



User Group - College students
Intended Experience - Simple, Student-Friendly, Affordable

User Group - Travelers
Intended Experience - Cool, Engaging, Travel-Focused
